How did you learn about this opportunity?

*Neighbor-to-Neighbor asks the following two questions in order to identify, as best as possible, community members who may have experiences that relate to the impact caused by an offender's harmful behavior. In this way, N2N staff can pair community members to cases where they can speak directly to the "community impact" of a specific harmful behavior and how that harm can be repaired.*

*Please omit any information you do not feel comfortable sharing. You are qualified to be a volunteer community member even if you leave the next two questions blank. All information is confidential and will not be shared beyond N2N staff or used in any way other than that described above.*
